

2015 Summer Opportunities in Kentucky of Interest to Gifted and Talented Students

**compiled by the
KENTUCKY ASSOCIATION FOR GIFTED EDUCATION (KAGE)**

The summer programs listed here are just a sample of the opportunities available to gifted students. Your child's teacher or district G/T coordinator may be able to provide you with additional options. Many Kentucky universities, community colleges, and city governments offer summer programs that would be of interest to high ability young people. At the end of this list are some websites with listings for these and other compilations for area summer camps. We suggest thinking about your child's interests and looking accordingly - for instance, many musical and theatre companies, museums, and nature preserves and parks offer summer camps. Thanks to everyone who sent information.

Many of these camps have early registration deadlines, so contact them as soon as possible if you are interested. All information is accurate to the best of our knowledge. Inclusion in this document does not mean a recommendation or endorsement by KAGE, but is offered only as a service to families and educators of gifted children. Please let the camps know that you heard about them through KAGE.

**Consider becoming a member of KAGE and supporting efforts such as
this compilation of opportunities.**
